Case Number: MUR 7377

ATTN: Kathryn Ross

My response to the letter dated May 9, 2018:

I firstly apologize for the lateness of this response. Since the election, I have moved and taken some time to visit family and friends so these letters have just reached me recently.

Our campaign (WOLF 2018) is now over and our FEC account has been terminated. Our election was on March 20th, 2018, and we did not win.

The author of the original complaint named Dusek was an opponent and routinely trolled our campaign online and as well as in person. She disrupted our meetings as well as public forums and was found by the community and voters to be a disruptive and public nuisance.

1. All of our advertisements, including digital, paper, televised or otherwise, always listed PAID FOR BY WOLF 2018. All of our campaign commercials had PAID FOR BY WOLF 2018 for at least four seconds as required. Sometimes it was at the beginning AND at the end so as to ensure we were compliant. We ran advertisements on NBC and worked with the sales people who also ensured that our digital ads were in full compliance with state and federal regulations.

2. Any software purchased was for my personal use and I did not feel comfortable nor see it as necessary to use campaign funds for something that was installed on my personal computer or used by me as an individual.

Thank you

Benjamin Thomas Wolf
